## IC-V3500: Go Farther

**KIRKLAND, Wash. (May 2022)** – Icom’s newest amateur FM transceiver is the IC-V3500 and it’s ready to hit the road whenever you are. With a compact body and simple interface, this radio is a must for those looking for a long-range mobile with a fresh look.

The IC-V3500 has a sleek, modern, and easy-to-read white LCD screen with radio functions labeled along the bottom create easy-to-read identifiers for the front panel buttons in low light and nighttime operation. Other features include a rugged 2m FM transceiver with a powerful 65 W\* of RF output power for long-range communication (and large heatsink to maintain stable output), 4.5W of loud, noise-cutting audio output, instant Volume Loud/mute functions, emergency call/alert functions, and more.

Icom is continuously dedicated to designing and manufacturing the best amateur radio equipment on the market. Hams the world over choose Icom for their legendary durability, quality, dependability, and ease of use.
