Icom America Awarded Sourcewell Contract through 2025

KIRKLAND, Wash. (August 2021) – Icom America has been awarded a four-year Public Safety Communications Technology and Hardware Solutions Contract. This contract solidifies our compliance and means our entire product lineup (across all five divisions) is available for participating customers to purchase. This contract includes access to our nationwide Dealer Network, providing local sales and technical support to Sourcewell Members wishing to purchase Icom products. This contract is effective 6/23/2021 – 6/23/2025.

Sourcewell is a government organization that partners with education, government, and non-profits to enhance student and community success by streamlining the procurement process, saving time and money. Please visit our [contract page](#) or contact our [Government Customer Service Team](#) for complete details on this versatile purchasing tool for our Government end-users.

Icom is known the world over for manufacturing the most innovative land mobile radio solutions. In a world where technology is ever-evolving, Icom continues to stand the test of time with leading-edge forward-thinking. Radio users worldwide choose Icom for their legendary durability, quality, dependability, and ease of use.

About Icom America

Icom Incorporated is a wireless communications equipment manufacturing company located in Osaka, Japan. Since Icom's establishment in 1954, Icom has had a long record as a trusted manufacturer of land mobile radios, marine radios, navigation products, aviation radios, communications receivers, and amateur radios. Icom is recognized as a reliable two-way radio global brand name around the world with a reputation for rugged, high-quality products. Icom radios are used by many professional organizations worldwide, including military/police forces, local governments, utilities, transportation/airports, security firms, and many other users. Icom is taking this deep knowledge of radio technology and expanding to a new genre of professional radio in the satellite communication field.
