Now Taking Orders! Icom's Technology Enhances the P25 Standard

KIRKLAND, Wash. (August 2017) – The ever-advancing P25 standard continues to grow, with Icom's new [F7010/F7510 series](#). Icom is building an entire line of P25 radios, and this new series is a welcoming addition to the family. Icom's 3rd generation of their P25 solutions not only captures the essentials, but offers extended features as well.

Built specifically for public safety and service organizations, the F7010/F7510 series is perfect for any environment. The **impressive and rugged design** of this series comes with an IP68 waterproof rating and built to MIL-STD-810G standard. The high visibility color display provides easy viewing in any lighting conditions. For those noisy environments, the active noise cancelling reduces background noise and is easy on the ears.

First in Communications

Other features include, **increased channel capacity** up to 1,024 and ID lists up to 1,000 provides the ability to address and operate within large multi-user organizations and agencies. **Security features**, such as AES with FIPS 140 and DES in conjunction with over the air rekeying (OTAR), ensure privacy levels of P25 communications are the same standard as used by the federal government. This series is also packed with standard Icom features such as AquaQuake™, Bluetooth®, GPS and more.

For more information, contact your local [authorized Icom Dealer](#).

About Icom America

Icom America (part of Icom Incorporated) is a leading communications solutions provider. Icom began as engineering and manufacturing company, making advanced, compact solid-state radio equipment for use by amateur (ham) radio enthusiasts. Icom has since grown to become an industry leader with a product line that includes state-of-the-art communications equipment for land mobile, marine and avionics. Icom America was founded in 1979. With the exception of Cuba, Icom America is responsible for representing Icom products within the entire Western Hemisphere.
